1. None

### **III. OLD BUSINESS**

1. **Discontinuance of Miller Bridge Rd.** - Dan Lindley, Town Administrator has some legal concerns that he would like to discuss with the Selectboard in Executive Session. Leon Whitcomb expressed his frustrations with the Department of Transportation and has some concerns that he would like addressed when the time comes. Since the project is a State Project and has already gone through Act 250, Dave Yacovone questioned whether there was anything we could do to address his concerns. The Selectboard will not make any decision tonight regarding the discontinuance of Miller Bridge Rd.

### **IV. NEW BUSINESS**

#### **1. Bridge Street Bridge Inspection Report**

- We received an inspection report from the State of Vermont indicating that there was a crack on the south side bottom outer channel beam. The State is looking for a response from the Town. Eric Calderwood explained that this is a fatigue crack in the weld itself not in the channel. The Bridge was not designed to have welds in these locations, therefore the cracking occurred. Eric says that the cracks do not affect the load bearing on the Bridge, but we would like to address the issue by drilling holes in all four channels. He will draft a letter to the State indicating the remedy for the situation.

**V. TA REPORT**

- Cady Falls Bridge work has begun. Bridge will be closed for approximately two weeks.
- Bypass committee met on Friday. The State suggested that we take over the section of Rt. 100 from the village limits to the Bishop Marshall School. Dan thought this wouldn't be a bad idea since it would give us more control over the lighting, crosswalks, etc. They did agree to name Rt. 100, Historic Rt. 100.
